

Customer Hub Pricing (Advisors)

Customer Hub Pricing is Cargill's public facing pricing platform. It allows you to view live pricing information for your selected location, commodity, and grade, without the need for an account. The Latest Active Bids report is only available to users with the broker role assigned. It provides our pricing in a report format which you can filter and export for a wide range of locations and products. This report is updated every 30 minutes, and you will need an account to access it.

1. Customer Hub Pricing Overview

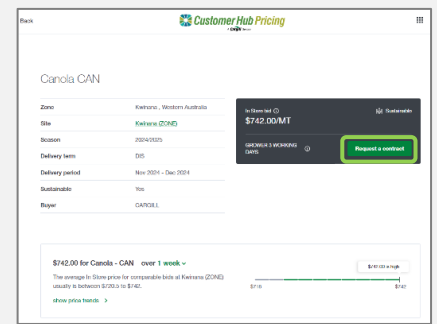

1. Review the Market Trends tab to see historical price trends or the Sites tab to view prices based on location.

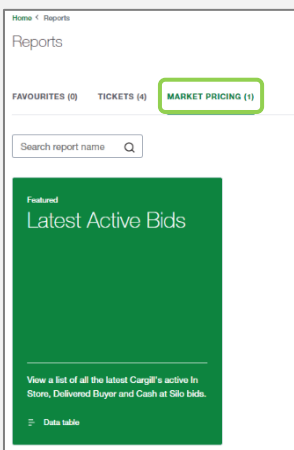

Site	Commodity	Grade	Season	Buyer	Price (MT)	Delivery period	Sustainable	Payment terms
Chilpan, GEI	Wheat	APW1 H2	2023/2024	CARGILL	\$163.00	Nov 2024 - Dec 2024		08-2024
Chilpan, GEI	Wheat	APW1	2023/2024	CARGILL	\$163.00	Nov 2024 - Sep 2024		08-2024

2. Use the Active Bids tab to view active published prices. Set the filters, including Market Type, to find your price, then select a price line in the table and an option from the green activity bar.

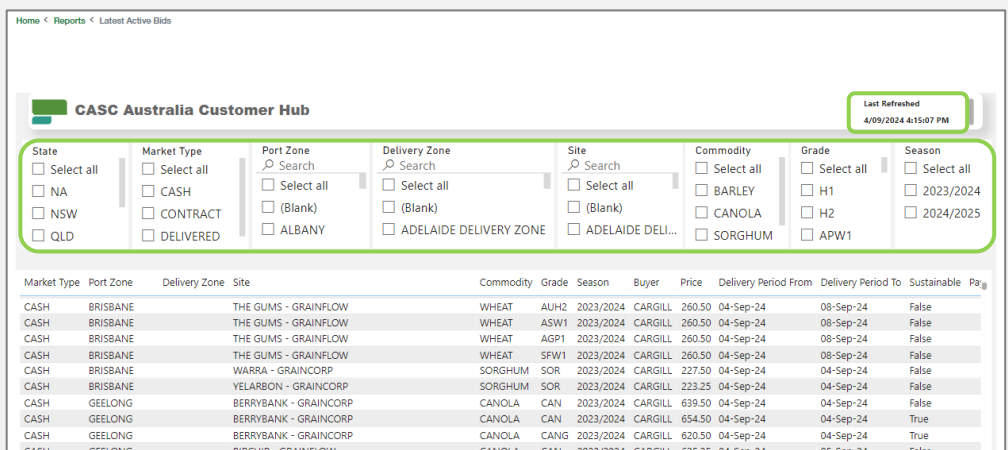

3. You can choose to view the bid details to request a contract, view the site details or Make an Offer for contract or warehoused tickets (depending on the Market Type selected in the filters).

2. Latest Active Bids Report

1. To access, click the Reports tile on the homepage.

Navigate to the Market Pricing tab and click the 'Latest Active Bids' Report.

Market Type	Port Zone	Delivery Zone	Site	Commodity	Grade	Season	Buyer	Price	Delivery Period From	Delivery Period To	Sustainable	Pa
CASH	BRISBANE	THE GUMS - GRAINFLOW		WHEAT	AUH2	2023/2024	CARGILL	260.50	04-Sep-24	08-Sep-24	False

2. Use the filters at the top of the report to refine the data in the table as required. The report is refreshed every 30 minutes, and the last refresh date / time stamp can be found in the top right corner.

For live pricing or to transact against a published bid, go to Customer Hub Pricing.

Exporting the Report

The screenshot shows the 'CASC Australia Customer Hub' interface. It includes filter sections for State, Market Type, Port Zone, Delivery Zone, Site, Commodity, Grade, and Season. Below the filters is a table with columns: Market Type, Port Zone, Delivery Zone, Site, Commodity, Grade, Season, Buyer, Price, Delivery Period From, Delivery Period To, Sustainable, and Payment Term. A 'More options' dropdown menu is open over the table, showing options like 'Export data', 'Show as a table', 'Spotlight', 'Get insights', 'Sort descending', and 'Sort by'.

2. Hover your mouse over the table with the pricing data and click the 'More Options' icon.

1. Select 'Export data' from the drop-down menu.

The dialog box titled 'Which data do you want to export?' offers three options: 'Data with current layout', 'Summarized data', and 'Underlying data'. The 'Data with current layout' option is selected and highlighted with a green box. Below the options, there is a 'File format' dropdown set to 'xlsx (Excel 150,000-row max)' and 'Export' and 'Cancel' buttons.

4. Select Data with Current layout and click 'Export'.

The first screenshot shows a 'Successful export' message: 'Your data was exported.' The second screenshot shows a 'Downloads' folder with a file named 'data (58).xlsx' highlighted with a green box and an 'Open file' link below it.

3. The system will confirm the export was successful, open the file from your downloads.

Market	Port Zone	Delivery Zone	Commodity	Grade	Season	Buyer	Price	Delivery Period From	Delivery Period To	Sustainable

5. All the price data from the report is now available in the excel file.

3. Customer Hub Pricing Integration

The Customer Hub pricing integration feature allows a customer API to pass data directly into your broker company's system.

Requirements: Your company needs to have an active Customer Hub Account to access this feature.

If you want to more, including the API specifications, please contact the Cargill Digital Team - 1800 447 246.
